'Putting hygiene first'

Ordering your Logo Mat

Getting your own Logo Mat is as easy as 1 – 2 – 3!

Step 1: Artwork

We need your logo in order to create digital files that we can place into your mat. This can be provided in digital format in .pdf, .ai, .eps, .tiff, .jpg, .cdr, or .bmp. Please note, the higher the resolution of the files you provide, the more accurate our designers can be when setting them in the format necessary to print onto the mats. Below is a guide to follow when submitting original images of your logo.

PREFERABLE

Black and white ad slicks
Brochures
Magazine ads
Camera ready artwork

MARGINAL

Colour prints
Business cards
Business literature
Letterheads

UNACCEPTABLE

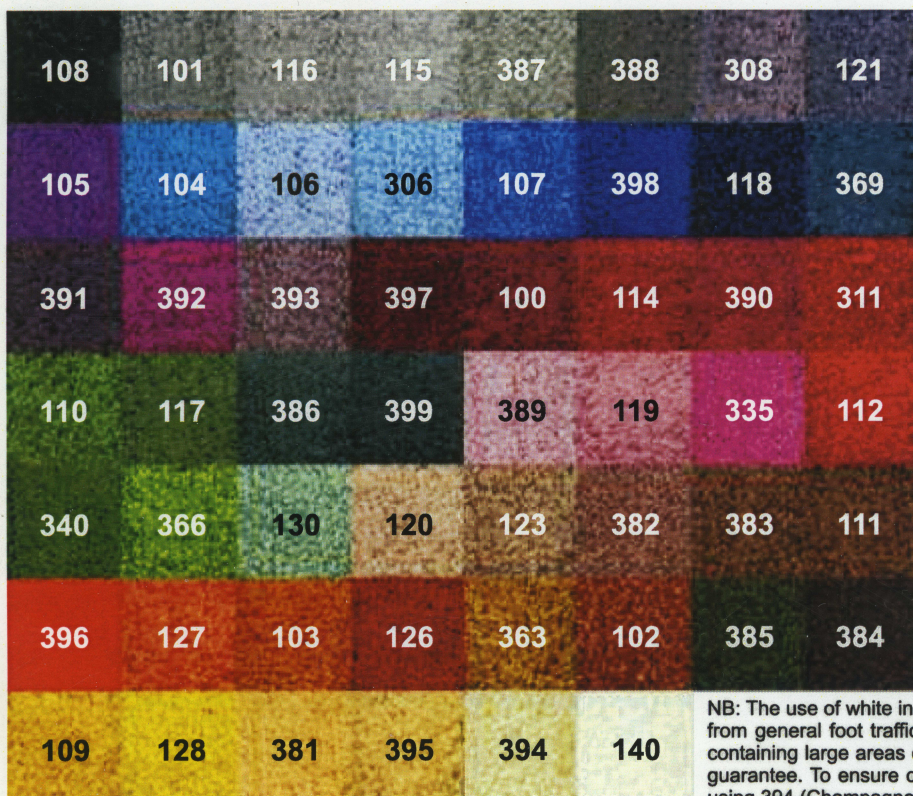

Faxes
Newspaper ads
Yellow Page ads
Photographs
Banners/Flags
Embossed materials
Metallic materials
Emblems

Step 2: Visual Request

Submit your chosen artwork via email or post to our Sales Team and we will provide a visual proof for approval in 24 - 48 hours from receipt.

Step 3: Approval

Once your design meets your approval we will process your order. Please allow approximately 14 working days for delivery.

NB: The use of white in a logomat is not recommended. White will easily discolour from general foot traffic and during the wash process. For this reason, logomats containing large areas of white will not be covered by the manufacturers standard guarantee. To ensure optimum appearance and logo vibrancy, we would suggest using 394 (Champagne) or 115 (Grey) as an alternative.
